Kommunity Karnival Will Start Next Monday With Three Big Days and Nights

Baseball Tournament Commences at the Fair Grounds in Afternoon, With Special Dominion Attractions on Platform in Front of Grandstand—Karnival Kapers Commence at Kurling Rink at 7—Dancing Every Evening

"Kraah! Bingo! and we're away!!! The Big Three Kommunity Karnival breaks loose on Monday next and there's to be three days and nights of Komical Kapers, games, dance, music, etc., etc., and so on, and so on. The committee have their preparations practically complete and a most attractive program is being dangled before the optics of the classes and masses of Wetaskiwin and surrounding district.

The big doings commence at the Fair Grounds next Monday afternoon at 1:30, with a platform program in front of the grandstand. The Wetaskiwin Boys' Band, under the leadership of Father Walraven, will furnish music, and will also the Moonbeams Orchestra. Dances will be contributed by members of Mrs. Egan's class and the "Selling Alberta" trio, under the supervision of Mrs. J. A. Rodell, who will demonstrate at the National Exposition in Toronto, will give an instructive exhibition. Tug-of-war is on the cards and captains of any seven-man team representing any district are asked to send entries to E. Linskov (at Cooke's Drug Store) before Saturday night. The afternoon's program will conclude with a baseball game, New Norway vs. Wetaskiwin. "Windy" Dyer will handle the

indicator throughout the three days. At 7 p.m. the Karnival doings at the rink will begin.

Each evening a prize will be given away in the Kandle Kontest. The prizes and sample candle are now on exhibition in the window of Snyder's Hardware.

At 1:30 and 4 p.m. on Tuesday at the Fair Grounds, two baseball tournament clashes will occur. Ponoka vs. Red Deer and Innisfail vs. Viking. A band concert will be given by the Crooked Lake Boys' Band, with C. Jevne directing. The joyfest at the rink breaks out afresh at 7.

On Wednesday at 1:30 the locals play the winner of the first game on Tuesday and the finals will be staged at 5, with big doings again at the rink at 7.

Among the attractions at the curling rink will be The Bozo Man and Horse Shoe Pitching, two innovations that will create no end of interest. Then there's the Kandle burning display, chocolate booth, ring game, dart game, ham borch, oopla, juke joint, bingo, kiddies' corner, hot dog stand, check room, and last but not least, the spacious dance floor, with music by the popular Moonbeams. Bingo, let's go—early and often—day and night!!!

Want Samples for Display at Big Edmonton Exhibition

A Wetaskiwin District Exhibit of Agricultural products will be put on at the forthcoming Edmonton Exhibition, July 16th to 21st inclusive.

This exhibit will be gotten together and prepared under the joint management of the Kiwanis Club and the Board of Trade of Wetaskiwin.

The farmers of the district are all invited to assist by contributions of selections of their products.

Mr. Ed. Rasmussen will be in charge of the display.

The following samples are wanted: Threshed grain samples, gallon lots. Sheaves of growing grain, clovers, wild and cultivated grasses (4 inch bundles). Wild and cultivated flowers.

Vegetables, whole and canned. Fruits, wild and cultivated, fresh and canned.

Eggs and honey. Photos of farm homes and barns.

If farmers interested will bring in any choice specimens they have to Mr. H. A. Inglis, secretary Board of Trade, they will be listed. Any articles wanted returned will be taken care of and brought back to be called for.

All samples except growing grain to be in during week from 9th to 14th. Growing grains on 13th and 14th.

Farmers are asked to make an effort to pick out the best they have, as this exhibit should advertise our district and it is the hope of the committee in charge that Wetaskiwin district gets the first honors.

Sound Hygiene and Public Health Is Theme at Kiwanis

The Kiwanis Club held their weekly luncheon at the Pal banquet room on Tuesday evening, with President Odell in the chair. There was a fair attendance with five visitors, including His Honor Judge Lees. General business of the club occupied the first part, when the Club's proposed objectives were discussed. A kiddies' play ground and wading pool was favored and referred back to the committee to be taken up again later, as the new public park would have to be considered as against a more central location for both the east and west sides of the city.

It was decided to restrict the club to meeting only once a month during July and August and meetings to be country ones if possible. The annual picnic for the children to Pigeon Lake is also to be arranged for.

Mr. F. T. Cooke, lecturer on public health, was present from the Provincial Department and gave a splendid address on "Sound Hygiene and Public Health in General."

Mr. Cooke dealt with the many phases of the subject in a very lucid and interesting manner, referring to the high mark set by medical men, that if any deaths are allowed to occur nowadays from diphtheria or typhoid, coroners' inquests should be held, as owing to modern methods, deaths from these causes were now unnecessary.

A most interesting item was Mr. Cooke's statement that a model health district was talked of by the authorities.

This was the setting aside of a special district in the province containing say 2500 of a population or the size of Wetaskiwin and providing an all day specially appointed medical officer who would be free to do nothing else but study and attend to the district. The providing of special nurses and children's clinics and following up of all treatments to procure beneficial results would ensure long

life and prosperity for this particular model health district.

As a grant from the Rockefeller Institute of at least 25% of the cost could be obtained, it is surely worth while for a city like this to go after the proposition at once and claim that no more central or better district could be found than that of Wetaskiwin to try it out.

Another interesting statement made by Mr. Cooke was that the baby clinic held in Wetaskiwin last week was the most successful yet on record, as over 63 babies that had been weighed, examined and had received d.t.c. cards, etc., represented the finest class of healthy children the department had ever handled. Photos had been taken and the report by the Department on the splendid showing made by the Wetaskiwin babies would be broadcast far and wide.

The Kiwanis motto of "We Build" is apparently working out splendid in the case of these babies.

Picnic at Angus Ridge

A successful country meeting of the Kiwanis Club was held at Angus Ridge Community Hall on Wednesday evening, June 20th, when a number of the farmers of the district and their ladies were guests of the club. From about 4 till 6 p.m. a soft ball game between two teams representing the city and country was the centre of attraction. The country team won by a slight margin. Frank Aboussey was the impartial umpire.

At 6 o'clock, the Kiwanis and their guests, to the number of over 100, were served with a bountiful repast in the basement of the hall, by the ladies of the district. President Odell welcomed the guests on behalf of the club and briefly stated some of the history and aims of Kiwanis, to which George F. Root replied:

Charles Nellis won the attendance prize donated by Kiwanian Russell. After a couple of rousing songs, the

H. WM. MEECH

Commissioner of Public Works, City of Lethbridge, who presided at the twenty-fourth annual meeting of the Union of Alberta Municipalities, held in Edmonton last week and who has been President for the past year. He is succeeded in office for the current term by Commissioner Mitchell, of Edmonton.

Fraser Is Re-elected Editor of Alberta Research Bulletin

Mayor Montgomery took a prominent part in the proceedings at the annual convention of the Union of Alberta Municipalities held in Edmonton last week, being particularly in the limelight when the ownership of public utilities was under prolonged discussion. The delegates clearly showed they were opposed to private interests gaining control except in the smaller towns and villages.

Mayor Montgomery of Wetaskiwin declared he was strongly in favor of the larger towns and cities hanging on to their light and power franchises at any cost. If necessary, such municipalities could restrict their franchises and their distributing systems and contract for the power and light from private corporations. The speaker also warned against letting the question go to a public vote, owing to the danger of the public being misled by the propaganda with which the power trusts are flooding the country.

The convention was unanimously in favor of carrying on with the Research Bulletin, which has been edited for some months by J. E. Fraser of Wetaskiwin. Mr. Fraser was commended on his work and asked to carry on for the coming year.

The publication is produced in the plant of The Wetaskiwin Times. It was decided to increase the circulation from five hundred copies to twelve hundred.

Commissioner Mitchell of Edmonton, was elected president for the ensuing term. Mayor Montgomery was selected as a member of the Legislative Committee.

ON WAY TO BAFFIN LAND TO SPEND YEAR AND HALF

Mr. and Mrs. J. Dewey Soper spent the week-end at the home of Mr. and Mrs. William East. Mr. Soper, who is a brother of Mrs. East, is now employed by the Yukon and N.W.T. Branch of the Department of the Interior and left on Monday on the first lap of his journey to Baffin Land, where he will for the next year and a half investigate for the Government the flora and fauna of that little known part of Canada. Mrs. Soper and their child will remain during that period in Wetaskiwin.

SWINE CLUB STARTED

A Boys' and Girls' Swine Club has been started in the Wetaskiwin district, sponsored by the Board of Trade. Owing to delay in getting started, only twenty members are in the club this year, but it is hoped that next season this number will be greatly increased.

It is proposed that an exhibit of this year's hogs be held in Wetaskiwin in the latter part of October.

Press Endorses Attitude Taken By Mayor Montgomery Regarding Public Ownership

Editorial in Lethbridge Daily Herald, Reprinted in Red Deer Advocate

The question as between private and public ownership is one which is frequently debated. So far as Lethbridge is concerned, we have come to the conclusion that it is wise to retain public ownership of our utilities, as denoted in the result of the plebiscite held over the question of entering into a contract with the Calgary Power Company for the exchange of power. The question "Shall we part with our franchises?" is dealt with in the current number of the Union of Alberta Municipalities Research Bulletin

WILLIAM IRVINE, M.P.

Who, at the U.F.A. Convention here last week, reviewed the activities of Parliament at Ottawa during the past few months and expounded many opinions as to the country's needs.

Weddings

SMEES—PUTNAM

The marriage of Iva Fay Putnam and James Smees, both of Wetaskiwin, took place at Gibbons, Alberta, at the home of the bride's parents, on Saturday, June 16th. The officiating minister was the Rev. Douglas Ramsay of Fort Saskatchewan. Mr. and Mrs. Smees every happiness and prosperity.

MCUE—ROBBINS

A pretty wedding was solemnized at the manse, Norwood United church, on Monday evening, June 18, at 7:30 o'clock, when Evelyn Emma, daughter of Mr. and Mrs. E. H. Robbins, of Pigeon Lake, became the bride of Mr. Clifford J. McCue, son of Mr. and Mrs. McCue, 11902, 93 street. The Rev. W. A. Smith officiated.

The bride wore a dainty costume of poudre blue georgette with picture hat and bouquet of Opheelia roses, gladioli and carnations. Mrs. Dean Hawkins who was maid of honor, was becomingly gowned in peach and mauve with hat to match and wore a corsage of liddle carnations and fern. Mr. Dean Hawkins attended the bridegroom. Following the ceremony the young couple with their immediate friends and relatives motored to Gibbons where Mr. and Mrs. McCue will reside. A tempting buffet luncheon was served and the remainder of the evening devoted to games and dancing.

As a souvenir of the occasion the bridegroom presented to the attendants a silver cream and sugar with serving tray.—Journal.

FIRST EDMONTON POLICE BADGE FOUND; IS RELIC

Police constable badge No. 1, issued to Andy Haig, famous Edmonton policeman who quit in 1919 to take charge at Wetaskiwin, and who has since died, has been found. It was lost by Haig shortly before he left the police force here.

It was found Wednesday by a boy as he was walking through the lane west of 191st street and near 104th avenue. It was covered with dirt and badly tarnished.

The badge has been placed among other relics at the police station—Edmonton Journal.

TAX SALE ON JULY 14

The attention of owners of property who may be in arrears of taxes, is drawn to the Tax Sale to be held in the Council chamber on Saturday, July 14th next, when all property on the Tax Sale list will be sold unless payment of arrears is made and the property is redeemed previous to the sale.

ALLOWANCE OF SIX PER CENT

Owners of property not in arrears are notified that prepayments of this year's current taxes will be accepted and an extra allowance of 6% interest to the first day of September given to all those who wish to take advantage of this offer.

Alberta alone has 14 per cent of the world's coal reserves.

Many Resolutions Passed Annual Convention U.F.A. for Federal Constituency

Endorse Proposal for Increased Indemnity to Members in Ottawa House, With Provision For Sliding Scale—Henry Young Re-elected President—Speech by William Irvine, M.P., one of the Features

Accredited delegates to the number of fifty-five and about one hundred and fifty visitors from all over the constituency gathered in Wetaskiwin on Thursday, June 21, for the annual convention of the U.F.A. of the Wetaskiwin Federal Constituency. The meeting was an enthusiastic and live one. All afternoon was spent with addresses, resolutions and the business of electing officers for the ensuing year, and at six o'clock an adjournment was made to the banquet room of the Driad, where, following dinner, business was completed and further short addresses were given.

Then followed an hour or more given to consideration of the several resolutions presented to the convention by locals within the riding.

The first of these was that where an assessed elector lives on rented land in the same division as his assessable land, his wife, son or daughter shall have the same right to vote as though he were actually living on his assessable land.

The next resolution to carry aroused much interest and warm but favorable discussion. This resolution was that all veterans who had served overseas should be entitled to free medical and hospital service.

Hillsdale local brought forward a resolution requesting from the Provincial Government an increased grant for bridges where the need exists. In support of the resolution it was brought out that in some districts a great number of bridges are required while in others a very few are needed. (Continued on Page 5)

Cattle Trade to the United Kingdom Is In a Bad Way?

Montreal, June 22.—That Montreal is doomed so far as the cattle trade from the west to Great Britain is concerned is the gloomy prediction offered by J. Charles Yule and W. W. Sharpe, ranch owners, of Alberta, who sailed Friday morning aboard the Canadian Pacific S.S. Montclair, for Scotland, where they intend to buy 60 head of purebred Shorthorn cattle for stock-raising purposes. Both are prominent cattle men in the west and state that very soon no Canadian cattle will be shipped out of this country to the United Kingdom.

"The distance is too great to ship cattle to have them arrive in good condition," said Mr. Sharpe. "There is a distance of 3,000 miles to be covered to ship them across the continent. Then the beasts are faced with another 2,500 miles of sea journey before they reach the other side. In addition to this freight charges are too high to allow of making any profit."

"All the cattle are going to the United States," he said, "and when the democratic government is in power, there will be a lot more shipped from Canada. The United States is the logical market for Canadian beasts and the time is not far distant when we will be shipping them all to Chicago, which is only half the distance to Montreal," he declared.

Ontario alone produces more nickel and cobalt than all the rest of the world combined

All Grains Making Splendid Growth Throughout Alberta

Early seeded wheat is now in the shot-blade in many sections of the province and all grains are making rapid and vigorous growth, according to the telegraphic reports received on Friday by the Department of Agriculture, for the fourth fortnightly crop report of the season. The entire province has benefited by the rains which have been general during the past two weeks, and the setback which crops in some areas have received as a result of delayed germination is rapidly being recovered, although some fields are somewhat patchy.

Warm growing weather is now the most urgent requirement for crops to take full advantage of the abundant supply of moisture. Never in the history of the province has a crop been so well under better conditions as far as high quality of seed and treatment for disease are concerned, and never has more concerted action been taken to keep fields free from noxious weeds. Conditions are reported generally to be ideal for breaking and summer-fallowing, and the opinion is expressed that the acreage of new land brought under cultivation this season will again be of record proportions. Some seven thousand acres have been seeded to sugar beets in the southern part of the province, and of this acreage fully one-third is reported to be showing a perfect stand, with the remainder giving promise of a good average crop.

Cutting of alfalfa and sweet clover has commenced in the south but has been interrupted to some extent by the rains. Very little hail damage is reported in one or two districts, but crops in the affected areas are making a good recovery. Practically no insect injury to crops has occurred with the exception of the appearance of wireworms in some northern districts. Crops in the Peace River country are well advanced and in view of the increased acreage under crop this year

On account of rains last week Manitoba generally has enough rain to last two or three weeks. There is tendency for too much moisture in Red River valley, but little damage has resulted. The general outlook for all crops is decidedly good and farmers are looking for better than average yields this year on account of unusually favorable moisture conditions this month. Large per cent wheat in shot blade, Rydard wheat on farm of Thomas Long, Manitoba reported fully headed. Corn needs warm weather to promote growth. Outlook of hay crop is good with heavy yield assured. (Continued on Page 5)

PROSPERITY

A drive through any section of the Wetaskiwin district, after all the rain of the last few weeks, though not always an easy matter, is a most stimulating experience.

More land than ever before is under cultivation this year; the grain after the admirable growing conditions the last few weeks is well stocked out and promises an unusually bounteous harvest. At the same time the advancing prices for hogs and cattle are stimulating interest in this industry which has for years been a large one in this area.

Altogether this year promises to place the Wetaskiwin district in a wonderfully prosperous condition.

FREE TRADE

The resolution passed by the U.F.A. Federal Constituency Convention which met in Wetaskiwin on Thursday last, supporting the request of William Irvine, M.P., for authority to vote against such measures as the trade pact with Australia, which has pointed out unfavorably affects the agricultural industry of Canada, was quite a natural one.

When actual facts and conditions are pitted against theories, particularly when purses are injured, the former have a way of coming out on top. This fact U.F.A. members of parliament no doubt appreciate. Certainly this has been the experience of the Liberal Party in Canada, nominally at any rate a Free Trade party.

A historic high tariff policy in Canada or any other country will prove a most difficult one to change materially. This is particularly the case in a period of prosperity. The change towards one of Free Trade is rendered the more difficult in Canada by reason of our proximity to the United States with its high tariff wall, and by the fact that the trading nations of Europe by one means or other protect their industries against those of other countries.

With other industries protected in Canada it is not to be wondered at that the farming industry protests against a tendency towards free trade in farm products only, even if such a protest tends to place them too in the ranks of the protectionists.

HOGS

The news from various sections of the Province—Stettler, Delburne and other points—that large numbers of hogs have died from a mysterious malady is one which will interest local farmers.

This district is justly famous for the quality and quantity of hogs shipped out from Wetaskiwin each week. A report which will no doubt be forthcoming shortly, from the Dominion Livestock Branch as to the cause and treatment of the disease will be awaited with interest by all those who are engaged in this industry.

BIG, RED PIMPLES COVERED HER FACE, ARMS AND NECK

has done for me. My face, neck and arms were covered with big, red, painful pimples. After I had used the first bottle of B.B.B. I saw it was doing me good and after the second one my pimples were just about gone. Manufactured only by The Wm. S. Burdock Co., Limited, Toronto, Ont.

SAFER CROSSINGS

It is announced that the Railway Commission intends to take up in more systematic and more energetic way the matter of making railway crossings safe. Recent legislation has given the board more freedom in the use of funds set apart for this purpose, and it is indicated that something in the way of a general plan for the safeguarding of crossings may be looked for. The announcement is one to give very general and very genuine satisfaction. It is to be hoped that the board has or will be given the necessary authority to do a good deal more than recommend and advise railways and municipalities as to what crossings need protection and of what kind. While both railways and municipalities have shown generally a reasonable degree of willingness to adopt protective devices, the Commission should have mandatory power where either party blocks action by an unwillingness to co-operate.

CARELESSNESS OF PUBLIC RESPONSIBLE FOR DESTRUCTION OF FOREST LANDS

At this season of the year when residents of cities and towns are getting out into the country places and when the woods and mountains are being invaded by automobile tourists and picnickers, it is well to bring to public attention the fact that carelessness upon the part of these pleasure seekers is each year collecting a gigantic toll.

According to the United States Forest Service, there has been an average of \$1,000 forest fires in the United States every year for the past decade.

THE INSOLENT PEDESTRIAN

Have you ever walked along a dark road at night and cursed the motorist whose fender barely missed you as he whizzed past at thirty miles an hour?

Did you ever stop to realize that the motorist probably did not see you until he was almost upon you and that it was merely because of expert work at the wheel that you lived to curse?

Many motorists prefer to drive with dimmers. Others do not have lamps properly focused. In either case it is often impossible to notice a pedestrian until almost upon him. Some pedestrians, feeling that the road is as much theirs as the motorists, insist upon remaining on the center and forcing the driver to swerve aside—even when a machine is coming in the opposite direction and such swerving is extremely dangerous.

Far too often the driver notices the pedestrian too late—and we have another fatality. Pedestrians can often see and hear an approaching automobile long before the driver sees them. Step aside and be safe. No motorist wants to kill you—but he may do it if you are too pugnacious.

Nova Scotia has the only large tidal water coal fields on the Atlantic coast of America.

Celebrate Golden Wedding

MR. AND MRS. A. C. BUNNEY, OF WETASKIWIN

On June 16, 1878, A. C. Bunney and Sarah Seymore were married in Harrison county, Missouri. Fifty years later many friends in Wetaskiwin and district where they have lived for the past twenty-three years, extended congratulations on the occasion of their golden wedding anniversary. Having tried their fortune in Nevada and California, Mr. and Mrs. Bunney returned in 1895 to Missouri, where they conducted a hardware business, coming later to Iowa, and then to Wetaskiwin. Following the trail until they came to Battle Lake, they crossed on the ice and took up their homestead on the north shore. The following spring when the ice went Mr. Bunney had to cut a trail to get out to the east end of the lake.

Nine years ago Mr. and Mrs. Bunney moved into Wetaskiwin, but after six years the lure of the land kept calling and they returned to their homestead where they have since remained.

Mr. Bunney was born on June 17, 1852, in Madison county, Indiana, and was educated in the county school in Floyd county, Iowa, later teaching school in Harrison county, where he met his bride and took up farming.

The golden wedding anniversary of Mr. and Mrs. A. C. Bunney, pioneers of the Yorkford district, was celebrated by a gathering of friends on June 16th at their home, two miles from the Yorkford Post Office.

Mr. Bunney was 76 years old on June 17th and Mrs. Bunney confessed to 66; so was a young bride fifty years ago.

Mr. Bunney is very active and energetic, farming his own land and cultivating a large garden plot, and has often captured the prizes at local fairs with his exhibits of grains, grasses and vegetables.

Mrs. Bunney, too, has her flock of turkeys ready when Christmas comes, and for many years her home has been the hospitable refuge for the hungry and weary traveller on his way to the "Golden West"—Buck Lake.

They are real pioneers, locating over twenty-five years ago, when it took weeks to make the trip out with a team of oxen. Friends arrived from 1 p.m. to 3, and, as it were, were present. Many others

who spoke of the joys and blessings in being surrounded by their family of children and grandchildren, congratulated Mr. and Mrs. Bunney on their happy surroundings.

Miss Vera Lawson of Wetaskiwin, who is teaching in the Battle Lake district, contributed a humorous recitation and was heartily applauded.

After community singing, Mr. Nelson of Battle Lake, also a pioneer of the community and a man of Mr. Bunney's age, spoke very feelingly on the topic "God's Blessings," and closed with prayer.

Mrs. Bunney requested the song "God be with you till we meet again," and many eyes were dimmed when this was sung.

A bountiful lunch was served and the 22 pound bride's cake was cut by the bride of 1878, who must have been a May Day Queen 50 years ago, since she was a beautiful bride on June 16, 1878, when dressed so charmingly in pearl gray satin. Her beautiful white hair was a crown of glory.

It is interesting to know that Mr. Bunney has been a Mason since 1875 and a member of the Oddfellows since 1881, and Mrs. Bunney has been a member of the Eastern Star for over 40 years.

Around seven o'clock the guests began to depart, each one realizing a golden wedding anniversary is a rare and enjoyable affair.

Pictures were taken of Mr. and Mrs. Bunney; three sons and daughter, Mrs. Niles, also a group of the gathering of friends was tried later when the sun ventured from the rain clouds.

Mr. E. B. Sparks of Brightview, expressed great pleasure at being present and spoke of how he prized the friendship of this estimable couple, and then called the attention of the younger guests to the great changes made in the past 50 years. He noted, in particular, the changes in means of transportation. In new, undeveloped localities, the ox team with a cart was a common means of travelling, then a wagon with farm horses was an improvement, a buggy with a good driving team a great luxury, but now the automobile was to have step aside for the airplane.

Mr. E. R. Rasmussen of Wynne, who was present, also spoke of the changes in means of transportation.

Mr. E. R. Rasmussen of Wynne, who was present, also spoke of the changes in means of transportation.

Mr. E. R. Rasmussen of Wynne, who was present, also spoke of the changes in means of transportation.

W. Prest, Manager

Weed Control in Alberta

(By Clyde C. Gilles, Strathcona, member of Alberta Advisory Weed Board)

Anyone who has made only a passing study of the subject realizes that the control of noxious weeds is one of, if not the most, serious problem facing the province of Alberta today. To say there is no menace from weeds, to say that everything is being done that can be done, would be misleading and far from the truth. We have always had weeds and noxious weeds will have them but the damage they do is to a great extent controllable.

member of Alberta Advisory Weed Board) and by a united effort on the part of Federal and Provincial Governments, Municipalities and individuals, there is no doubt but that the situation can be met and the loss reduced to a minimum.

The estimated loss due to noxious weeds in Alberta in 1927 was put at \$18,000,000 by the Field Crops Commissioner. Were the total losses for the whole Dominion put in figures the amount would probably exceed

\$180,000,000. The annual loss from forest fires over which we show so much concern, pales into insignificance when compared with these appalling losses due to weeds. The loss due to forest fires in 1927 was estimated to be less than \$1,700,000.

It is not the purpose of this article to describe methods of eradication or identification of our weed enemies. This information is contained in a bulletin issued by the Alberta Department of Agriculture, "Alberta's Weed Problem," a copy of which will be sent free to any address in Alberta on applying by letter or otherwise to the Field Crops Branch, Department of Agriculture, Edmonton. The purpose of this article is to outline the organization of the forces directing weed control work in the province.

The work of directing weed control and the administration of the "Noxious Weeds Act" comes under the Department of Agriculture, and is carried on under the direction of the Minister of Agriculture, by the Field Crops Branch. This branch is in charge of a commissioner responsible to the minister. Under the Commissioner and responsible through him to the minister, are sixteen field supervisors. These men have definitely stated districts and their duties are, in part, to supervise weed control work in their districts, to advise farmers and others as to the best means of eradication and identification of weeds, and to supervise the work of municipal or L.I.D. Weed Inspectors. They are in the field from June 1 to October 31 or later, if required. These supervisors are carefully chosen, carefully trained men. Their position is a responsible one and besides, a good knowledge of farming and weed eradication methods, they must be capable of lecturing and be of sound judgment, as they are frequently called upon to adjudicate when disputes arise between land owners and weed inspectors. The Municipal and L.I.D. Weed Inspectors are what might be termed the junior members of the weed control staff. These men are responsible to the Municipal Council and field supervisor in Municipalities and in L.I.D.'s are responsible to this field supervisor. Their duties are similar to those of the supervisors but on account of the relatively small area over which they operate, they do most of the detailed inspection work. Stated briefly, there is at the disposal of farmers and others a staff of competent, specially trained men who are willing and able to advise on matters pertaining to weed control. The effectiveness depends to a great extent on how much the public avails itself of the services offered and the amount of co-operation between the public and this staff. It is the wish of the Provincial Government to make this branch 100% effective and it is hoped that everyone will make the best use of the organization.

Removed to a certain extent from the chain of responsibility is the Advisory Weed Committee. Legislation passed at the last session provided for this committee. This body is composed of seven members who represent the Alberta Seed Growers' Association, the U.F.A., the Wheat Pool, the organization of Municipalities, the Dominion Experimental Farms, the unorganized farmers and the Provincial Government. As the committee's name implies, its work is purely of an advisory nature and it is not necessary to say more about it here.

Last, but not least, we come to the fighting members of the weed control effort—the men on the land. Let me define the man on the land to be the owner or occupant of any land and include in the word land parcels varying in size from a fraction of a village, city or town lot to the largest parcel held by any company, government or individual. There has been no difficulty in defining the duties of the official of the weed control service, but the duty of the individual offers a broad and somewhat complicated field. As the writer sees it, the man on the land has a duty to himself, a duty to his neighbors, and a duty to posterity. In fairness to himself, an occupant of land should so manage his land that it brings him a maximum return. In fairness to his neighbor, he should see that his operations cause no damage or loss to his neighbors. In fairness to posterity, he should see to it that his land is maintained in such a way that it will be a help and not a hindrance to those who will follow him. It is obvious that a man on the land who allows his land to become polluted with noxious weeds is injuring himself, his neighbor, and posterity.

Many people consider that it is the duty of the Provincial Government to detect and destroy all the weeds in the province. Another will say that as an owner of land he is privileged to do what he pleases with that land and the Government should adopt a "hands off" policy entirely. To arrive at a reasonable conclusion as to what the Provincial Government's duties are, we must turn to the "Noxious Weeds Act," as this is the tangible expression of the opinion of the duly elected representatives of the people. Since an act exists, it is the first duty of the Government to administer the terms of this Act. A close study of the Act shows it to be a piece of legislation drafted for the protection of property. The main criticism one may have of this Act is that it interferes with a man's personal liberty in that it provides penalties for the man who feels he should be able to do what he likes with his own land. This Act is not directed against the good farmer who

is doing his best to combat the weed menace but is designed for his protection. The writer knows of no other duties provided for by Statute or otherwise for the Provincial Government. In appointing field supervisors who act in the dual capacity of weed Act administrators and advisors on weed problems, the Government has done so in order that persons affected by the Act may not only be acquainted with the terms of the Act, but will be provided with information that will enable them to avoid penalties by the adoption of weed control methods in their system of farming.

The attitude of many of us towards supervisors and inspectors leaves much to be desired. It is human nature to resent criticism and the pointing out of our faults. Let us rise above this feeling and try to see in the weed inspector a friend who may point out our faults but who is willing to advise on the best way to correct them. Let us not wait for the inspector to find our noxious weeds but be our own inspectors; for who is in a better position to detect weeds than the man who in the course of his field operations, crosses and recrosses every foot of his land several times each year?

It would be well to impress on the newcomer to this country the necessity of becoming familiar with the weed problem in this province. Many of our weeds are of European origin and will be readily recognized by a great many experienced European farmers, but it must be borne in mind that in this province, agricultural methods and climatic conditions are so different to those existing in other lands that weeds which may be easily controlled in the British Isles, for example, are particularly difficult to control here.

In conclusion, the writer wishes to point out one way in which we can benefit by the experiences of the older provinces. Some weeks ago, in order to obtain information on the weed question the names of five or six farmers in a well known district in another province were obtained, more or less at random. Certain questions were asked and for the most part varying answers were received, but each farmer volunteered the information that their trouble was due entirely to the fact that in the early stages of its invasion in the province, personal sow thistle was not recognized as a serious menace. Another farmer stated that the effects of sow thistle were worse than the combined bad effects of frost, hail, rust, drought, freight rates, elevator charges, and other things which are rightly or wrongly termed pests. We have a serious situation to face. Recognition of the situation is half the battle. Let us put forth our best efforts. Let us couple up the farmer's well known ability for hard work with the methods tested and approved by skilled farmers and trained technicians and endeavor to avoid the unhappy experience of the older provinces.

Heart Troubled Her Was Afraid to Walk Around the House

Mrs. Henry J. Davis, 31 Princess St., Stratford, Ont., writes:—"A few years ago I was troubled very much with my heart and nerves; was all run down and became very thin indeed. "I was afraid to walk around the house the way my heart would jump and beat. "I went to the doctor to get relief, but he did me no good. I then went to another and then to two more and still my heart and nerves were as bad as ever. "I was completely discouraged when a friend told me to try

"I started right away and the first six months I had gained ten pounds, and now, to-day, I have no sign of my heart trouble. "I always advise any of my friends to try your 'Pills' over mine. I was relieved of my trouble." "Milburn's Heart and Nerve Pills are 50c, a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont."

EXHIBITION AND STAMPEDE AT CALGARY, JULY 9-14

Calgary has become famous all over the world for its great annual celebration, the Calgary Exhibition and Stampede. An indication of its success is in the following attendance figures: 1922, 97,722; 1923, 137,838; 1924, 167,279; 1925, 178,065; 1926, 197,471; 1927, 210,879.

The Calgary Exhibition is the show window of Western Canada where a magnificent display of livestock, government, agricultural, industrial and domestic exhibits may be seen. This year the combined celebration will be held July 9th to 14th, when His Excellency, Viscount Willingdon, Governor-General of Canada, and Lady Willingdon, will be present and participate in many events during the week.

The opening feature, the Stampede Parade, will this year surpass all others. Headed by His Excellency, the Governor-General and a number of men of prominence, followed by the Royal Air Force Band direct from London, it will be of special interest. There will be at least fifteen bands and the parade will be seen by fifty or sixty thousand people. The morning street display will be held on Tuesday and Thursday mornings.

The Stampede events will be especially thrilling, and the running race program will bring together the finest thoroughbreds in the West and from the Western States. The vaudeville features are exceptionally clever and entertaining. On Saturday night the most spectacular fireworks ever seen at Calgary will conclude the program.

Seat reservations should be made early to avoid disappointment, and rooms, either in hotels or private homes, can be engaged by writing to D. F. Whitney, President of the Alberta Hotel Association, Calgary. Patrons may have their mail addressed to themselves care of the Post Office on the Exhibition Grounds, Calgary.

There will be special reduced fares from Saskatchewan, Alberta and British Columbia mainland points. Calgary has up-to-date automobile camps.

Entries for the Stampede close on July 5th; prize lists and entry forms may be had on application to the Exhibition offices, Calgary.

SHOULD PRACTICE

A little more kindness, a little less creed.
A little more giving and a little less greed.
A little more smile and a little less frown.
A little less kicking a man when he is down.
A little more "we" and a little less "I."
A little more laugh and a little less cry.
A little more flowers on the pathway of life.
And a fewer on the graves at the end of the strife.

CALLED BY DEATH

Another of our pioneer citizens, Mr. Chas. Behrens, passed away at his home last Friday evening. Mr. Behrens had been suffering for several years from a complication of diseases, and has recently had several severe attacks, the last of which was of short duration, resulting in death.

Born in Germany, he came with his parents to Iowa when only five years of age. About a year later the family moved to Minnesota, whence they came to Alberta a number of years ago. Mr. Behrens being among the earliest settlers of the Kelsey district.

At the time of death the age of deceased was 55 years, 8 months and 15 days.

The funeral service, which was conducted by Archdeacon Howcroft, of Camrose, was held in Kelsey church, Sunday, at 11 a.m., and was one of the largest ever seen in Kelsey.—Bawlf Sun.

The House of Commons and Financial Reform

(By William Irvine, M.P.)
 (Continued from last week)

Recommendation of Banking Committee

Let me quote the important part of the committee's recommendation which Parliament concurred in a few days ago:

"The preponderance of evidence indicated that the operation of a Central Bank of Issue, or Federal Reserve Bank, as in the United States, exercised only an indirect or limited influence over price levels and that many of the functions attributed to such Central Bank of Issue and Reserve Bank were already being performed through the Finance Act. The Committee, however, is of opinion that owing to the rapid expansion of Canadian commercial and industrial operations and the possibility in the near future for the need of a much larger measure of credit than at any in the past. It is desirable that a careful study be made by competent experts of the facilities available under the Finance Act, and to determine if such are capable of ready expansion to meet possible requirements of credit; and further to determine if, under the present scope of the Finance Act, it is possible for the Treasury Board to deal effectively with unusual variations in the rates of interest, and, lastly to consider (in case it should be decided that present legislation is too restricted) what measures should be taken to adapt our present system to the growing needs of the country.

"Your committee, therefore, recom-

mend that the Government, through the Minister of Finance and the Treasury Board, invite into conference the bankers of Canada, together with other competent persons with experience in such matters, to give further study to the subject matter of this report, with a view to taking such steps as in their opinion in the premises are warranted. Your Committee feel that, while it has accomplished much useful preliminary work, this would be conducive to a more intensive study of the question than to have the Committee itself conduct further investigations, and this recommendation would, of course, in no way affect the usual procedure of having all important changes in banking legislation ordinarily made at the regular departmental revisions of the Bank Act submitted for the careful consideration of the Committee."

Marks Great Step Forward

The encouraging feature of the report is that it not only holds the door open to further investigation, but it recommends that the Government call a conference of experts to study the whole question of credit. This report marks a great step forward as compared with the investigation of 1923 alluded to above. At that time the present system was thought to be so perfect that any kind of a report to Parliament on the matter would be an insult to the God of Gold. This year, however, a problem is admitted, further investigation of it is suggested and the Government is recommended to undertake such an investigation.

Finance Minister Sabotages Inquiry

It should be pointed out, that although Parliament passed the resolution authorizing an investigation, there was no enthusiasm evinced by the Minister of Finance. He suffered the investigation, but would do nothing to help. His refusal of funds to pay the expenses of witnesses greatly hampered the Committee and circumscribed its efforts. There are men of great knowledge throughout the Dominion, but we could not call any one of them without funds for expenses. There are men in Great Britain and the United States of America who should have been called, but we could not hear them for the same reason.

Business men and manufacturers in Ottawa, Toronto and Montreal who were within reach of our limited expense account refused to come and give evidence. They expressed fear. They indicated how they were at the mercy of the banks and if their evidence were regarded as hostile to banks, their credit might be shut off. This was the nature of replies from business men received by Mr. Woodworth. Under these disadvantages we were confined with exception of Mr. Darby from the Canadian Council of Agriculture to bankers and officials of the Finance Department for our

information. Imagine trying to obtain evidence in favor of Social Credit from such sources.

While we may have hoped for more than the evidence given, still we are not discouraged. We are not without witnesses. We have had the assistance of Mr. Hjalmar Peterson of Water Glen, a solo about God's grace, which was very appropriate; then short speeches were rendered, the best one being that of Mr. Claus Swanson, who knew the Bredenberg's before they were married. He explained for us many wonderful things regarding a truly happy marriage; also the reason of the unhappy marriage, and we join with him in that all he said was true. Mrs. Carlson and Mrs. T. Johnson also sang a duet at the close of the program. After the program a splendid luncheon was served. Mr. Acker of Hartford, Conn., was one visitor who enjoyed himself with the rest. After the lunch all gathered in the front yard to have a photograph taken.

Organization of Social Credit Groups

In conclusion I would suggest that the organization of Social Credit Groups in every community where there are interested students would be advisable. This idea has been suggested to me by Mr. A. G. Crafter, of Victoria, and I believe that it could and should be done. Not only would these groups prepare the public mind for the fundamental change which is necessary, but it would be an influential factor in leading to it that whatever change is made shall be fundamental. I have no desire now to criticize any particular individual or school of thought. It has been my policy so far to find and emphasize that which all advocates of financial reform have held in common. This I conceived to be advisable while we were engaged in the initial stages of the movement and since in an analysis there was very general agreement. But as we advance toward the necessity of practical policy it will become clear that some who are active advocates of Credit Reform have overlooked the Social Credit principle and would merely tinker with the present system. To safeguard against this there should be a means of systematic education and the organization of Social Credit Groups would provide an effective agency in this regard.

ANOTHER SILVER WEDDING

Mr. and Mrs. Bredenberg, of this city, were happily surprised Monday afternoon, when the congregation of the Swedish Mission Friends at Malmo, with a number of other friends, gathered at their home to help them celebrate their 25th anniversary. The groom was very busy at work in the U.P.A. Store where one of the friends went to get him, to show him how many friends from the East, West, North and South had gathered to cheer them. A splendid program was rendered by the friends gathered. After the song "Blessed be the tie that binds" was sung, Miss Julia Hedlund played a splendid selection on the piano, after which Miss Hildur Swanson, the youngest daughter of Rev. E. B. Swanson, presented Mrs. Bredenberg with a

handsome bouquet of roses. Mr. Hjalmar Peterson of Water Glen, sang a solo about God's grace, which was very appropriate; then short speeches were rendered, the best one being that of Mr. Claus Swanson, who knew the Bredenberg's before they were married. He explained for us many wonderful things regarding a truly happy marriage; also the reason of the unhappy marriage, and we join with him in that all he said was true. Mrs. Carlson and Mrs. T. Johnson also sang a duet at the close of the program. After the program a splendid luncheon was served. Mr. Acker of Hartford, Conn., was one visitor who enjoyed himself with the rest. After the lunch all gathered in the front yard to have a photograph taken.

EXTENSIVE IMPROVEMENTS FOR EDMONTON EXHIBITION

Visitors at the Edmonton Exhibition, which is being held July 16 to 21 next, will find that extensive alterations and improvements have been made to the grounds and buildings. Five new cattle judging rings will be located immediately to the west of the cattle barns, and accommodation will be provided for spectators.

In the Women's Building new glass

show-cases have been installed, which will give a greater display to the various classes of women's exhibits. The art section has been moved to the old Administration Building, leaving the entire upper floor for women's needlework and cooking.

The prize list will be "bigger and better than ever." An entirely new prize will be that given for decorated stalls, \$5. for the best decorated stall in each breed of horses and cattle, and \$10 for the best decorated stall in each breed of live stock. Cattle breeders will be especially interested in the new classes which have been added in each breed for Alberta-owned cattle. In the sheep and swine sections a graded scale of paying prizes has been adopted which will magnify the number of awards in accordance with the exhibits shown and make the whole more comprehensive and far-reaching in its scope. Large increases have been made in the money offered for honey, and the classification has been made broader.

Grains will also receive increased awards and a new system for displaying threshed grains will be used. As a special award the Alberta Pacific Grain Co. has offered a silver cup for annual competition and a small replica of it will go to the winner each year for permanent possession. Another new feature will be classes for farm women, including prizes for the best patchwork or placework quilt, and the best pair of hand-knit socks or stockings. This is expected

to prove particularly attractive to women in rural communities.

Arising out of the first specially conducted farmers' marketing tour of Great Britain and Denmark, taken last winter, there will be a new exhibit by the Dominion Government, in association with the Canadian National Railway. Other items of interest will be the Old Timers' and Forestry Cabins.

A feature which will be a boon to parents is the free Baby Clinic, operated under the direct supervision of the Provincial Department of Health. Entries for all departments close July 3rd and those wanting free Prize Lists should write to E. L. Holmes, Secretary, Edmonton Exhibition Association, Arena Building.

WAILS FROM MANVILLE

Manville, Alta., June 26.—Whereas the poplar groves, abundant in this district, were a few days ago well leaved out in rich green foliage, today they are brown and sickly-looking. They have been stripped of their leaves in every direction by caterpillars. The unusually warm weather of this spring had brought the trees in leaf earlier than ever before but the worms too appeared early and are

PARSON BLESSED HORSE,
TRAINER PRAYED; IT WON

London, June 21.—Rev. J. H. Davies, rector of Wesley Waterless, near Newmarket, told the Ely diocesan conference yesterday that just before the classic Guinea races were run at Turf headquarters recently, he asked God's blessing on the stables during the week he was chaplain at the King's racing establishment. Whether in answer to the supplication or merely by chance, the royal filly Seattle, won the One Thousand Guinea. The trainer and all persons who had anything to do with the stables attended communion the following Sunday, he said.

The rector also confessed that he once bet sixty cents on a horse and won \$25.

DISAPPOINTED AT CAMROSE

Says the Camrose Canadian: "On the afternoon of June 16th, thirty Camrose golfers gathered on the local links to uphold its laurels in much mooted tournament with Wetaskiwin. Between the hours of one and four o'clock the arrival of the westerners was eagerly looked for, but with no results. Owing to some misunderstanding or eleven hour alterations of plans, the only outside opponent on the spot was Mr. Shields, who had come up the previous day, in all good faith to play. As tournaments do not go by default in this part of the globe and as the local club has a defeat to avenge, it is hoped that the long expected visitors will materialize at the appointed hour, upon some week end in the very near future."

DIAMOND DUST

The locals were defeated 14-4 in a Battle River league game at New Norway, the double-ens amassing nine of their counters in one frame. Rodvick and Olstead performed on the mound. The Wets were minus a number of their regulars.

The wet weather has continued to hamper the operations of the Soft Ball League.

After being trounced 12-5 by the New Norway team, the Bashaw gang took sweet revenge to the tune of 14-2.

Bashaw were visitors here yesterday for a double-header in the Battle River baseball league and copped both games—5-0 and 3-0.

The British Empire is the world's greatest diamond producer; the Cape Province of South Africa alone is.

Port Harcourt, Nigeria, is the greatest coal shipping seaport in West Africa.

PRIZE MONEY IS INCREASED
FOR CAMROSE BALL TOURNAMENT

The annual baseball tournament will commence at Camrose on July 20 this year, in connection with the Fair. Last year the prize money totalled \$1,300. This year it will be split as follows: Winners of each game \$125, losers \$50. The winner of the final will get \$300 for the game, besides money won in previous encounters. Ten teams will compete, three games each day. Denny McClellan will be in charge.

BOWLING CLUB RINKS

The bowling green is a busy place these evenings and keen competition is being displayed in the local draws, the rinks being as follows:

E. B. Chandler, Dave Baker, Geo. Grigsby, Ed Moore.
G. L. Gotthard, Jas. Fleming, J. Gies, W. Gies.
Dr. McClellan, Jas. Dixon, D. McEachern, E. Edwards.
W. S. English, Jack Ralston, Joe Reholm, M. Chappell.
T. E. Williamson, C. Russell, Lloyd Spencer, D. Ward.
C. Rice, G. Thompson, J. Redmond, L. Hanna.

Rovers—A. P. Moon, Recknagle, Blackwell, F. Westwood, Court Lucas, Jack Dougherty.
The men folks are at it every evening except Tuesday, when the fair sex have command of the green.

Ed. Gotthard is taking a rink to Edmonton next week to participate in the Edmonton Bowling Club competition, and it is probable a couple of other rinks will invade the capital city.

GOLF NOTES

On Sunday next, July 1st, the members of the Lacombe Golf Club will meet the members of the Wetaskiwin Golf Club at the Wetaskiwin course. While it is not known at present how many visitors will be here, all members, both ladies and gentlemen, are requested to turn out between one o'clock and six o'clock. As this is the first time we have had the pleasure of entertaining the Lacombe Club, the committee in charge hope there will be a good representation of our members.

WHAT IS THIS GOLF?

Golf is a form of work made expensive enough for a rich man to enjoy. It is physical and mental exertion made attractive by the fact that you have to dress for it in a \$200,000 club house.

Golf is what letter-carrying, ditch-digging and carpet-beating would be if those three tasks had to be performed on the same afternoon in short pants and colored socks by gouty-looking gentlemen who require a different kind of implement for every mood.

Golf is the simplest looking game in the world when you decide to take it up and the toughest looking after you have been at it ten or twelve years.

It is probably the only game a man can play as long as a quarter of a century and then discover that it was too deep for him in the first place.

The game is played on carefully selected grass with little white balls and as many clubs as the player can afford to buy. These clubs cost from \$5 to \$25, and it is possible to support the money represented by the balls lost by some golfers in a single afternoon.

A golf course has eighteen holes, seventeen of which are unnecessary and put in to make the game harder. A "hole" is a tin cup in the centre of a "green." A "green" is a small parcel of grass costing about \$1.98 a blade, and usually located between a house and a couple of apple trees or a lot of "unimproved excavations."

The idea is to get the ball from a given point into each of the eighteen cups in the fewest strokes and the greatest number of words.

The ball must not be thrown, pushed or carried. It must be propelled by about \$200 worth of curious looking implements, especially designed to provoke the owner.

Each implement has a specific purpose and ultimately some golfers get to know what that purpose is. They are the exceptions.

After each hole has been completed the golfer counts his strokes. Then he subtracts six and says "Made that in five. That's one above par. Shall we play for fifty cents on the next hole, too, Ed?"

After the final, or eighteenth hole the golfer adds up his score and stops when he has reached eighty-seven. He then has a swim, a pint of gin, stings "Sweet Adeline" with six or eight other lars and calls it the end of a perfect day.

ALL GRAINS

(Continued from Page 1)

First cutting of sweet clover will be early. Pastures in excellent condition and live stock thriving. No damage from insects or pests of any kind. Prospects for the province are best for some years.

Saskatchewan has been generously supplied with rainfall with precipitation especially beneficial to crops in the south central portions. Where wheat was close to being in shot blade with stand somewhat on short side.

A few fields still present spotted appearance, but crop is in decidedly good condition. Many farmers have completed summer plowing and taking province over, this work is well advanced. There is great activity in new breaking in localities where this work is usually done, farmers taking every advantage of specially favorable weather conditions. Livestock doing well with pastures in good condition.

No section of Alberta failed to receive soaking rains during the past week with result that there is ample moisture to carry crops into July providing normal weather conditions prevail. The Medicine Hat subdivision received from 75 to 80 hours rain with many other districts receiving equally heavy rainfall. Crop prospects are excellent and better than they have been for many seasons past. On account of recent heavy rains a noticeable improvement is recorded in fall rye crop, which will show much better returns than expected a week or so ago. Crop pests agreeably scarce, while weeds less apparent this year than usual. Best fields of grain appear to be on new 1927 breaking, many particularly fine fields being reported. Stock throughout the province doing well.

Weather during the past week in British Columbia has been generally warm and showery. Continued wet has resulted in splitting of cherries in some localities. Outlook for good yield in all varieties of fruits and field produce is promising, with no doubt that crop will average up better than last year. Strawberries yielding particularly well and are moving out at fair prices to a steady market. Trees and small fruits looking well and staving rapidly. Pears dropped heavily but in spite of this there will be a good crop.

SOUND HYGIENE

(Continued from Page 1)

meeting adjourned to the assembly hall upstairs. Here Mrs. Dwyer rendered a couple of songs with fine effect.

The address of the evening was given by Wm. Irvine, M.P., his subject being "Canadian Citizenship." He dealt with the different views that are held as to Canada's status and briefly touched on the problem of immigration.

A hearty vote of thanks was rendered the speaker and all others who had helped towards the success of the meeting, on the motion of Rev. A. L. Elliott, seconded by C. H. Russell.

MANY RESOLUTIONS

(Continued from Page 1)

ed, yet without regard to the actual need, the government grant is the same for all districts.

The next resolution to receive the support of the meeting had the object in view of making it certain that resolutions sent from the constituency organizations to the annual Provincial convention should have proper support at that convention, and read that a clause be placed in the constitution of the U.F.A. giving each Federal constituency the right to send one delegate to the Times Office.

gato to the Annual Provincial Convention. Support was also given to a resolution leaving the place of meeting of the next Constituency Convention in the hands of the Board, with a recommendation that it be held at Lacombe or Leduc.

Then followed a resolution requesting the Provincial Government that the Municipalities be given power to limit loads on trucks and other vehicles and to regulate traffic on the season roads. The purpose of this resolution was primarily to protect the roads during the spring and wet seasons.

A further resolution was submitted by the executive in which it was resolved that ten cents a mile one way and hotel expenses be allowed board members to cover the cost of attending board meetings. This resolution met with the approval of the convention.

Two other resolutions were passed by the convention at the evening meeting in the Driford Hotel. These followed up a suggestion from the Federal member, William Irvine, made during his address in the afternoon.

One related to a raise in the amount of the members' sessional indemnity, the convention being favorable to a raise and offering the suggestion that there should be a sliding scale based upon the distance of the members' home from Ottawa.

The other related to the tariff and was to the following effect: "That the Government should either remove the discrepancy imposed upon the dairy industry in Canada by the Australian Treaty or else remove the tariff from all goods the farmers have to buy."

Following consideration of the resolutions by the convention, came the speech of William Irvine, M.P., looked forward to by delegates as the special feature of the convention. After saying that the present convention was the best constituency convention he had ever attended and that a meeting of such a kind was an example of citizenship in action, the speaker gave an outline of the activities of the session just closed at Ottawa, from the point of view of a U.F.A. member.

There were two matters upon which he desired some action by the Convention. The one was the treaty with Australia, and the other the proposed increasing of the sessional indemnity regarding both which questions, the member did not feel free to act without some authority from his constituents.

Continuing, Mr. Irvine stated that he had kept the constituency informed of the activities of the house through weekly reports to the local papers within the constituency and by means of monthly reports to the locals. On the whole, he said, the session had been ordinary and the legislation meagre owing, he thought, to the lack of a sufficiently potent group of farmers in the house. There had been an air of buoyancy throughout the session owing to the prevalent belief that Canada is entering a period of prosperity. This had resulted in the voting of large expenditures of money, increasing the amount to be expended in 1928 over 1927 some \$38,000,000.

Mr. Irvine then dealt with the question of credit as it relates to prosperity. He contended that machinery has solved the problem of production but that there still remains to be solved the troublesome problem of cycles of prosperity and depression. The problem of students of political economy is to originate a system of credit which shall do away with the period of depression and panic following the over-production in industry which is a characteristic of good times. He thought that governments should be very careful of their expenditures in good times so as to provide work for the laboring man during hard times.

He also dealt with Parliament's "antiquated methods of dealing with estimates"—methods by which millions of money were voted to objects about which members did not and could not know anything. He had proposed special standing committees to deal with the estimates, and where necessary to receive evidence from Department heads and any other sources of information available. The Prime Minister had promised to see that proper methods of securing information were open to members next session.

As to taxation, the Federal member reported that there had been no fundamental change in the method of raising money. Slight changes had been made in certain items of the tariff, in order, he suggested, that favored interests might benefit. The income tax had been reduced 10% but there was a definite promise on the part of the Prime Minister that there would be no further reduction. There had been many changes in the tariff without any really substantial alteration. While he desired to see a real reduction on a scientific basis.

At this point Mr. Irvine had to conclude his address in order that the annual election of officers might take place. Henry Young, of Hillside, was re-elected President by acclamation; Mr. E. E. Sparks was appointed Vice-President, also by acclamation, and J. E. Cook of Conjugate Creek, was elected 2nd Vice-President. At 6:30 the convention delegates and visitors met at the Driford and enjoyed their annual banquet. Following this, unfinished business from the afternoon was completed and short speeches were delivered by Mr. Irvine, A. P. Moon and David Christie.

GOOD WORK DONE BY
THE RESEARCH BULLETIN

In its report of the annual meeting of the Union of Alberta Municipalities, the Edmonton Journal says:

"J. E. Fraser, city clerk of Wetaskiwin, submitted a report on the Research Bulletin which he has edited for the past year for the Union of Alberta Municipalities. The bulletin was first suggested at the Calgary convention last year as a means of keeping the various municipalities in touch with each other through the conventions. Although only two issues have been published it appears that a considerable amount of good work has been done by them."

PRESS ENDORSES

(Continued from Page 1)

possibilities, that no Government would ever be able to buy them out and we would remain for all time under the domination of soulless corporations."

The mayor of Wetaskiwin does not disregard the human element when he says that it is hard indeed to turn down the apparently very tempting offers of corporations. They will agree, he says, to take over existing plants and distribution systems, assume all the liabilities thereon and sometimes pay over a cash sum as well. They will promise to improve and enlarge the power plant and give an immediate reduction in the existing rates, which, by the way, may be raised at any time by order of the Board of Public Utilities. Careful analysis, however, he points out, will show that the benefits are more apparent than real and that the many advantages of public ownership will greatly outweigh any temporary relief.

Mayor Montgomery, in dealing with the question of efficiency as urged by the opponents of private ownership, mentions that this is not borne out by facts. Public ownership of utilities in Alberta is most successfully carried out, and no private corporation could hope to operate to better advantage or to give the same measure of satisfaction to the residents as is being rendered in practically every municipality where public ownership prevails and where these utilities are efficiently managed.

Mayor Montgomery makes a point when, in referring to public ownership he refers to the independence which municipalities lose when they part with their utilities and franchises, the value of which cannot be measured in dollars and cents. "Let us not," he says, "be guided by the influence of the moment and make unwise decisions that bind the future. Much better to guide our own destiny and remain our own master even at the expense of a possible yearly deficit, and when the time comes—be it near at hand or in the distant future—let us be ready with unfettered hands to join with other municipalities and the Government and make possible the establishment of a great provincially owned Hydro Electric System that will eventually be ours if we are prepared to receive it."

WETASKIWIN PUBLIC LIBRARY

The membership is now over 80 and many of these members have visited and borrowed books several times over during the short time the library has been open.

The small sum of 25c is charged as an initial fee to cover the cards and stationery costs and after this small sum has been deposited no other expense is incurred, unless you keep the books longer than 14 days, when a fine of 2c a day is charged. Several readers must now have allowed the fourteen days to elapse and are due fines. It would be a splendid thing to the Librarian if those who are taking too long to read the books would bring them in when the same books could be renewed for another two weeks and thus avoid the levying of fines, although he will not object to accepting silver instead of copper.

Several new books are being ordered and should arrive soon. Suggestions as to the names of suitable books that should be acquired will be welcomed by the book committee.

Please note the Library hours are Thursdays and Saturdays, 4 to 5 in the afternoon, and on Saturday afternoons 3 to 5 and 7 to 9 Saturday evenings. Country members are welcomed. It is hoped many will take advantage. Fifty-three books were loaned out on the first Saturday and over forty loaned out last Saturday, while there has been a steady stream during the week days. No-one could wish for a greater variety of subjects than are to be found on the library shelves. There is something to suit the taste of everyone, be he or she old or young, grave or gay.

The Times' subscription list is open at all times for inspection by its advertisers. Remember this when you wish to advertise.

Provincial Weekly News Bulletin

(Issued by Publicity Commissioner, Government of Alberta, Edmonton, Treasury Shows Substantial Surplus)
The highly satisfactory condition of Alberta's finances is reflected in the announcement during the past week by Hon. R. G. Reid, Provincial Treasurer, that the treasury of the Province has a surplus of \$279,763.13 at the end of the fiscal year, on March 31, 1928. According to the official estimates the Government expected to report a surplus for that period of only some \$465,513.31, and the improved showing at the end of the fiscal year is felt to be cause for considerable satisfaction.

At the end of the calendar year, December 31 last, the interim statements showed a deficit of \$213,930.21. This has not only been absorbed in the interval, but has been turned into a very substantial surplus when the accounts for the completed fiscal period are available. In future the accounts will all run to the end of March, in twelve month periods, this being the

first year under the new financial system.

Popular C.P.R. Official Promoted
J. M. Cameron, who for the past 13 years has held the post of General Superintendent of the Calgary division of the Canadian Pacific Railway, has been promoted to the position of manager of C.P.R. lines on Vancouver, it is announced by Vice-President D. C. Coleman. The appointment will take effect on July 1, when Mr. Cameron will take up his headquarters at Victoria, succeeding E. Denney, who is retiring after 45 years' service with the company.

Car For Every Nine Persons In Alberta
Alberta has 11.0 passenger automobiles per hundred of population or approximately one car to every nine men, women and children in the province, according to figures issued from Ottawa during the past week. In this respect Alberta stands fourth among

the provinces of the Dominion, Ontario leading with 12.1 cars per hundred of population and Saskatchewan and British Columbia following with 11.1 per hundred. Corresponding figures for the other provinces are: New Brunswick, 6.4; Nova Scotia, 4.8; Prince Edward Island, 4.7 and Quebec 4.8.

E. Ward Jones Succeeds Late G. H. Hutton

Announcement is made by officials of the Canadian Pacific Railway that E. Ward Jones, for the past several years manager of the Alberta Stockyards Company Limited, Calgary, has been appointed to the position of Superintendent of Agriculture and Animal Industry to the C.P.R. Department of Natural Resources left vacant by the sudden death of G. H. Hutton. W. M. Ripley has been named to succeed Mr. Jones at the Calgary Stockyards as acting manager.

To Honor Pioneer Coal Miner
The unveiling in Lethbridge on July 18 of a cairn to mark the site of Alberta's first coal mine, will be made the occasion of a ceremony that will pay tribute to the pioneers of the province's coal mining industry which in recent years has grown to such impressive proportions.

With the co-ordination of the Alberta Government and coal interests, a program has been arranged which will do full honor to the event. The cairn is being erected by the Historic Sites

and Monuments Board of Canada and will mark the site of the coal mine opened by Nicholas Sheran in 1872 near where the present city of Lethbridge stands. Sheran at that time was hauling coal across the border into Montana, a distance of 200 miles, by ox-team. With the exception of furs, this was the first of Alberta's resources to be exported.

In this connection it is interesting to note that out of the 6,936,780 tons of coal mined in Alberta in 1927, a total of 2,295,314 tons was exported to other provinces and to the United States.

Chester White Hog Selling Scheme
The attention of farmers and livestock men throughout the province called by the Department of Agriculture to an article appearing in the Calgary Alberta of Thursday, June 21, over the name of C. S. Froehner, District Sheep and Swine Promoter for Alberta.

This article answers very thoroughly the arguments previously published in defence of the scheme being promoted in different sections of the province by representatives of the Central United States Swine Company, and Mr. Froehner effectively points out the economic unsoundness of the proposition from the point of view of the farmer and produces a good deal of substantial evidence to prove that similar experiences have been very costly to farmers in a number of the American states.

Police Force of Military Character
Opposed in Britain

In connection with the consideration of police organization in Western Canada, a recent statement by Judge Athley Jones, assize commissioner for the central criminal court, London, England, is of interest. Judge Jones, in commenting on some actions of the London police, severely criticized the militarization of the force, emphasizing the fact that when the force was founded by Sir Robert Peel, it was intended to be a civil body, but of more recent years it appeared to be taking on more of a military character.

Many New Companies Incorporated
Twenty-one new companies with a total capitalization of \$981,000 have received certificates of provincial incorporation between May 21 and June 6, according to the last issue of the Alberta Gazette.

HOGS DIE FAST AS MYSTERIOUS MALADY ATTACKS

Reports of a mysterious malady affecting hogs at several points in the province moved officials of the Health of Animals Branch to vigorous action during the week-end. From Stettler it was reported that a farmer named Otto Klotz had found 82 animals dead out of 89, and equally alarming discoveries had been reported over a wide area, according to officials of the Dominion Livestock Branch. Although no official declaration has been made on the malady in Alberta, by Sunday evening considerable anxiety was felt by officials, as a serious outbreak of cholera had already been reported from points on the Pacific Coast and numbers of cattle had been imported from the United States during recent weeks.

Immediately it became known that suspected hogs had passed through the Calgary yards, restrictions were placed on trading by officials, and a quarantine was declared so far as hogs were concerned.

During Saturday, 48 animals distributed by United States interests among farmers in the Olds, Carstairs and Didsbury districts were ordered back to Calgary, where they were inspected and dispatched to a segregation farm for inspection. It was also learned on good authority that there was a possibility that all farms known to have received deliveries of hogs from United States points recently would be segregated.

Farmers finding numbers of their

Finds Road to Health at Sixty

"Fruit-a-lives" corrects Bladder and Kidney Trouble

MR. THOMAS GRAHAM
I am sixty years old and tried all kinds of medicines for bladder and kidney trouble, which used to keep me from work a month at a time, until I started taking "Fruit-a-lives". Thanks to "Fruit-a-lives" I have worked steadily for four years without a sick day. I have never felt better than I do now," writes Mr. Thomas Graham of Ottawa, Ont.
Because it is made from the juices of fresh, ripe fruits, intensified and combined with strengthening tonics, "Fruit-a-lives" soon brings radiant health to those who suffer from constipation, bladder and kidney troubles. It works in nature's own way. You will find "Fruit-a-lives" the very thing your system needs. 25c and 50c a box at all druggists. Start right away—to-day.

hogs lying dead in their pastures have in several cases notified the Provincial police, under the impression that cholera had been used. Examination by veterinarians and by the Provincial analysts have discovered no evidence of poison, however, and as evidence of cholera has also been lacking, the cause of death has been a mystery.

Losing 23 hogs valued at more than \$500, La Rue Smith, a large stock grower of Delburne reported the matter to the police and to the department at Calgary. This is one of the many cases being investigated by the Health of Animals Branch, the organs of the dead animals being at present in Calgary.

Officials of the Livestock Branch, interviewed on Sunday evening, took a most serious view of the outbreak, and considered that at least a number of the cases reported were cholera. It was a reasonable supposition, they said, that the disease had been introduced from the United States by animals brought over recently during a selling campaign. As farmers had been slow to report their losses to the authorities, it was believed that the outbreak was over a wide area, and if it was decided to place an embargo on all suspected cases, more than 800 farms in Alberta would suffer.

During Monday a definite report was expected from Dr. Hargreaves of Medicine Hat, who has the matter in hand for the department, and this was expected to disclose a serious position throughout the Province.

Constipation is the Breeder of Disease

Half the ills of life are caused by constipation, therefore regular action of the bowels is the foundation of health, in other words, keep your bowels regular and you won't be sick.

are the remedy you require. They may be safely used at all times; they act mildly and thoroughly, and it is only necessary to take one or two at night to cause an easy, satisfactory movement in the morning without any griping or sickening effects.

Weddings

KOVAR—MOONEN

A very pretty wedding was solemnized in St. Norbert's church on June 5, at 11 a.m., when Mary Agnes Kovar was united in the bonds of holy matrimony to Mr. Theodore Moonen, son of Mr. and Mrs. T. Moonen of Millet.

The bride wore a beautiful gown of white georgette, veil, slippers and stockings to match, and carried a lovely bouquet of roses and ferns.

The bride was attended by her cousin, Miss Evelyn Simmons of Killam, who wore a beautiful pink crepe gown and carried a bouquet of pink and white roses.

The groom was supported by his brother, Mr. W. Moonen.

Misses Margaret and Marie Moonen, daughters of Mr. and Mrs. G. Moonen, were flower girls, wearing gowns of pink crepe de chene, and carrying baskets of pink and white roses.

The wedding march was played by Miss Susie Haines, who wore a beaded georgette tunic.

The church was beautifully decorated with roses and evergreens, the ceremony being held under an arch of evergreens and roses.

After the wedding they motored to Wetaskiwin, where they had their photos taken, and then returned to the home of Mr. and Mrs. C. Moonen, where the wedding dinner was served.

The guests present were: Mrs. Silvers, Miss Annie Moonen, Mr. H. Moonen, Miss Agnes Kovar, Mr. W. Moonen, Mr. P. Nelson, Miss Susie Haines, Mr. A. Kovar, Mr. and Mrs. P. Moonen, Mrs. A. Lepine, Mr. R. Kovar, Misses Evelyn and Emma Simmons, cousins of the bride, and Father McQuaid.

The bride received many beautiful and useful gifts, which she appreciated very much. The afternoon was spent in a very enjoyable time.

In the evening a reception and dance was held in Pinyon's hall, which was beautifully decorated. Friends and neighbors to the number of two hundred met to honor and extend best wishes to Mr. and Mrs. T. Moonen, who received many beautiful gifts in the hall.

The happy couple left on June 11th for Spokane, Wash., where they wish them the best of luck.

SILVER WEDDING ANNIVERSARY

Mr. and Mrs. L. Pribe, residents of Millet district for the past twelve years, were the recipients of honor and congratulations on Tuesday evening, from a host of friends, relatives and neighbors, who visited them in a surprise party. Not expecting guests, the quiet farm evening routine was being followed by the family when the honking of horns announced the arrival of guests numbering fifty or more with their families.

Rev. Mr. Putzner and Mrs. Putzner of the Fredericksheim Baptist church and little son were present and Mr. Putzner, addressing Mr. and Mrs. Pribe and family, conveyed greetings from those assembled.

A short service of prayer and thanksgiving was heartily entered into by all present.

The members of the family present were the daughters, Pearl, Arpa, Agnes, and Cecilia, and one son, Roy, the one absent being Mrs. Rinauld Kilinski of Milwaukee.

Mr. and Mrs. Eckert, parents of Mrs. Pribe, four sisters, Mrs. Benkl, of Kavanagh, Mrs. Follenberg, and Mrs. Shindown, of Hobbema, and Mrs. C. C. of Rabbit Hill, and one brother John Eckert, were among the guests.

In testimony to the good wishes and congratulations of those assembled, the presentation was made of a tray and inset of a flat community silverware, Mr. Pribe replying feelingly for Mrs. Pribe and the family.

Tables laden with refreshments were greatly enjoyed, while musical selections were rendered by several of the company. The party separated at midnight, following the singing of "For they are jolly good fellows."

MILLET U.F.W.A.

The June meeting of the U.F.W.A. was held at the home of Mrs. Cottrell. Owing to the convention being held in Wetaskiwin on June 21 our meeting was held one week previous, and, owing to this fact, we were unable to have Mrs. Price, convener of immigration with us. However, we hope to hear Mrs. Price at some future date.

A letter was read by the secretary, Mrs. Wood and Mrs. McManus gave a few minutes talk on the pleasures of being a grandmother.

The photo guessing contest provoked much merriment, the prize being won by Mrs. Carney.

A delicious lunch was then served by the hostess.

The July meeting will be held in the Community hall, Millet, when the Millet local will entertain Hillsdale, Leduc and Conjurung locals. We hope to have with us Wm. Irvine, M.P. and other speakers, and a very pleasant day in anticipation.

Among those attending the convention in Wetaskiwin last week were Mrs. Carney and Mrs. Stanley as delegates, Mesdames Pogue, Ross and Higginson as visitors.

C.G.I.T. GROUP
AT NEW NORWAY HONORS MOTHERS

New Norway, on Wednesday night, the local C.G.I.T., under the direction of its new leader, Miss Gundersen, held a "Mother and Daughter" entertainment, consisting of banquet and program. The banquet was prepared by the girls themselves.

The program opened with a chorus by the C.G.I.T. members. There was a pageant in which figured the Mesdames Sigrid, Malmo, Gunda, Malmo, Irene Westwick, Marcelle, Jackson, and Belle Ramsey. Recitations were given by Edna Irons and Miss Gundersen. Marcelle, Jackson and Irene Westwick played piano solos. The mothers seemed pleased with the attentions lavished by the daughters who were happy in their duties as hostesses.

FAMILY BROADCASTING
"We had the best time playing postman," exclaimed the small hopeful of the family. "We leave a letter to every lady in the block."

"But where did you get the letters, dear?"

"Oh, we didn't get them from the attic, all tied up with a blue ribbon," New Outlook.

Red Squirrel, Indian brave, took aboard too much squirrel whiskey and was arrested for driving his car while drunk. When arraigned in court, Red Squirrel took refuge in true Indian brevity in answering the court clerk's charges, entered a plea of not guilty, while the judge set trial for later.

However, in an explanation said to have been given later to another Indian, Red Squirrel gave his version of what happened about like this:

"Indian boy new-filiver: Indian buy bottle moon, Indian drive down road, Indian see bridge come up road, Indian turn out to let bridge go by, Indian fall in creek."

Hi—Aren't some of those summer girls the heat breakers, though?

Low—Yes, but remember the beautiful repair work done by a lot of the others.

THINK IT OVER!

We suffer individually for the sins we commit collectively for the sins we permit.
—Proderston Mall.

MILLET LOCAL NEWS

Miss Mollie Plant arrived home from Banff on Friday.

Mr. Grant W. is confined to his home through illness.

Messrs. H. Dowler and J. R. K. Graham motored to the city on Wednesday.

Mr. and Mrs. E. Paulsen were guests at the home of Mr. and Mrs. West on Sunday.

Mr. Tupper, formerly of the local Imperial Bank, was a visitor in town on Saturday.

Departmental examinations are on this week and we wish all the students every success.

The Women's Institute plans to hold a lawn social at the home of Mrs. H. Arnold on July 4th.

Mrs. McDonald, who was the guest of Mrs. McManus last week, left for Calgary on Monday.

Mr. and Mrs. C. Moen were Camrose visitors at the home of Mr. and Mrs. Nordtorp on Sunday.

Mr. Ross Vanastine of Edmonton, was a visitor at the home of his sister, Mrs. Lloyd Wolf on Sunday.

Mr. and Mrs. Philip Jean and daughter Miss Helen, were guests of Mr. and Mrs. Graham on Sunday.

Miss A. E. Kerr, who was the guest of Mrs. Graham for some weeks, left on Thursday for Nevis, Alberta.

Mr. A. Dowler, who has been in Calgary for some weeks, returned on Friday, accompanied by her grandson, Donald McCracken.

Girls. Get your registrations for Millet District C.G.I.T. camp, Mrs. J. R. K. Graham, secretary. Dates for camp, July 12 to 20.

Miss Marion Graham and her cousin Miss Margaret Richardson of Carman, Manitoba, spent the weekend with Mr. and Mrs. Graham.

Mr. J. Benham with some friends, motored to Bremner on Sunday, finding road conditions good considering the recent rains, and crop conditions very encouraging.

Mr. and Mrs. P. Hodgson, whose marriage took place early in June, en route from the coast to their home in Athabasca, were visitors with Mrs. Hodgson's parents, Mr. and Mrs. Blades.

Messrs. Burt and Wells of Edmonton, were in town on Monday purchasing hogs and cattle. They report the market fairly steady and a considerable shortage of cattle over last year, probably due to increased dairying.

Mrs. Lloyd Wolf went to Calgary on Monday owing to the serious illness of her father, Mr. Vanastine. Word was received on Tuesday morning that he had passed away. The sympathy of the community is extended to those bereaved.

On Sunday afternoon on the Calgary road south of Millet, an automobile with two passengers was forced into a deep ditch by a car attempting to pass while meeting a third. The ditched car was damaged but there were no serious injuries to the occupants.

BABY GIRL HAD DIARRHEA WHEN CUTTING TEETH
Mrs. A. J. Murray, Gull Lake, Sask., writes: "Last summer, my baby girl was cutting teeth and became very weak with the effects of diarrhea. I didn't know just what to do for her as she wouldn't retain anything. At last, one of my neighbors and to me, Haven't you any D'FOWLER'S EXT-P-OF WILD STRAWBERRY?"

Why, I wouldn't be without it where there are children.

"My husband went to town and got a bottle, and the very first dose helped her wonderfully, and in three days she was well over the diarrhea and was running around as well as ever."

Put up only by The T. Millars Co., Limited, Toronto, Ont.

Cook's Regulating Compound
A safe, reliable, regulating medicine. Sold in three degrees of strength—No. 1, 2, 3. Sold by all druggists, or sent prepaid on receipt of price. Give pamphlet. Address: THE COOK MEDICINE CO., Toronto, Ont.

LADIES' AID HOLD SOCK SOCIAL

On Friday evening the Ladies' Aid of the United church held a sock social at the home of Mr. and Mrs. J. O. Anderson, the company bringing in the little socks four times their sock size, the total proceeds from this sock social being about \$20. A miscellaneous program of community singing, readings, recitations and instrumental music being rendered. Readings by Doris Wright, Allison Macdonald, a piano solo by Irene Kent and a reading by Mrs. S. C. Moon being greatly enjoyed.

Several good games were carried through, ending with a very lively one "The Human Spelling Match." Afterward the company sat down to dainty tables and closed the evening's entertainment by singing "Auld Lang Syne."

FROM GEOGRAPHIC BOARD OF CANADA
"Place Names of Alberta"

Millet—Village (C.P.R. before 1893). Named after Jean Francois Millet (1815-75) famous French painter.

Wetaskiwin—City. Came into being about the year 1892 when the Calgary and Edmonton railway was in course of construction. The C. & E. Townsite Co. Ltd. laid out the settlement. They adopted the Indian name—Wetaskiwin, of the neighboring Peace Hills. Post Office opened December 1st, 1892.

Leduc—Established about 1890. Lieut.-Gov. Dewdney established a telegraph station, to which he gave the name Leduc, after Father Hippolyte Leduc.

PATRIOTISM

"Such a price
The gods exact for a song;
To become what we sing."

"Such a price... to become what we sing."

Speaking to a group of 150 farm boys and girls the other night in the University, the Honorable J. E. Brownlee, Premier of Alberta, told them there was a more important wealth to be developed in this province than the great resources and the mighty virgin soils, and that was idealism. He reminded them of Rupert Brooks' immortal lines:

"If I should die, think only this of me,
That there's some corner of a foreign field
That is for ever England."

There was the spirit Canada needed. Mr. Brownlee spoke about a gathering of native Welshmen and the fine singing of their old national songs, with tears in their eyes. When Canadians can sing "O Canada" and "The Maple Leaf Forever" those stirring songs of a young and zealous and mighty nation, with a feeling that goes very deep, then is the nation strong, and sure, and safe. "To become what we sing"

"Let who will write the laws of a country," said a wise man, "so long as I may write its songs."

A nation does become what it sings; the gods have willed it. What a little thing; to learn those elusive words of our country's anthem and breathe deeply and sing with a thankful heart and a great depth of love; to see the vision of sweeping fields and mighty forests and rushing rivers; to feel our very beings surge with the tender pride of this, "our home and native land."

"O Canada, we stand on guard for thee. If we be called only to stand on guard through song, is it too much?"

To sing what we hope to become... and then to become what we sing, here is a real job for the man or woman who likes to be called "Canadian."

Let Us Start a Savings Account

in the Bank Here for Your Child

—or for your friend or relative under 16 years of age—no matter where they live. This is a Simple and Easy Method to Save some money to pay for a College Education for your child and the cost to you is Nothing.

The Child's Saving Plan

We agree to deposit in Cash in a Savings Bank on the 10th day of each month, to the credit of the child, as soon as Scrip is returned to the Store, to the amount of \$1.00 or more.

All monies which are deposited to the credit of the child, together with interest earned, shall at all times be the exclusive property of the child.

THIS IS A NEW, NOVEL WAY TO EDUCATE YOUR CHILD

You will surprise yourself how soon the Scrip will accumulate and how soon the Saving's Account grows to a large amount.

The following are the 4 local merchants in Millet who have adopted this plan and issue Scrip—and you are directed to them for your purchases in their respective lines—

Millet Mercantile Company John W. West	Whyte & Orr Limited E. J. Olsen, Mgr.
Scott's Meat Market W. S. Scott	Graham's Pharmacy J. R. K. Graham

Save Money

It is not always easy to save but those who do save prosper. As a little money is accumulated it should be placed in a Savings Bank account where interest will be paid and the principal sum be secure. There is a Savings Bank Department at every branch of this Bank.

IMPERIAL BANK OF CANADA

WETASKIWIN BRANCH, H. W. WRIGHT, Manager.
Branches also at Millet, Fernie and New Norway.

Another Firm Out of Business---

Just one of the news items which are appearing in papers quite too often these days throughout the Dominion. And what is the reason. There is only one, and that is lack of loyalty to home institutions and the lure of the flashing publicity of the large city establishments. Many citizens, while earning their wages and salaries in one place, nevertheless send a large proportion of this money out of the community for questionable bargains, thus depriving such community of that much necessary working capital.

Business Men Do the Same

They have local firms who are able and ready to supply them with all their requirements, yet for the most trivial reason or excuse they will consent to extend their patronage to outside firms, thus helping to build up distant cities at the expense of their home town. They seem to forget that this money so sent out might otherwise have been largely returned to them by those with whom they should have left this business. Therefore, when in need of printed-matter of any kind, whether farmer, business man or professional man, always extend first consideration to

Do not miss seeing the stamped at the Angus Theatre on Wednesday and Thursday, July 4 and 5. Tom Mix and Tony, his wonder horse, will be seen at their best in "The Horseman of the Plains," a story of the great West.

FLOWER SERVICE AT IMMANUEL CHURCH

The morning service at Immanuel Church on Sunday last took the form of a children's flower service and shortened Matins. The Sunday school children gathered in the parish hall and then marched to the church. While the processional hymn was being sung, they advanced to the chancel steps and placed their offerings of flowers on a large cross, which was then presented at the altar by the Rector. There was a large congregation, who listened with rapt interest to an excellent discourse by Rev. P. C. Wade.

FATHER OF DR. T. B. STEVENSON PASSES

Hastings, June 19.—There passed away on Monday night, June 11th, the oldest and most highly respected pioneer in this district in the person of Mr. James Bell Stevenson. Death came as a complete shock to his many friends, as he was enjoying good health until Friday morning, when he was stricken with a paralytic stroke, which he failed to overcome.

The late Mr. Stevenson had reached the good old age of ninety-four years and seven months, and saw numerous changes in the ways and customs of the country, which he could relate very accurately, up to the time of his illness.

He was a staunch Liberal in politics, and on many occasions was on the public platform with his nephew, Honorable George P. Graham. He served for many years in the Percy Township Council as well as holding several official positions in that township for over forty years.

He was a member of the United Church and was an official of the old Methodist Church for over fifty years, which position he held (now the United Church) at the time of his death.

The funeral was held at 2 o'clock on Thursday afternoon at the home of his son, Mr. James Stevenson, Jr., Front street, from thence to the United Church, where service was held. Rev. A. C. Hie, assisted by Rev. M. L. Hinton of Boggs, one of the dearest friends of the late Mr. Stevenson, and Rev. Dr. Thomson of the Presbyterian Church, conducted the service.

Rev. Mr. Hie, in his sermon, compared the deceased with a sheaf of matured corn. "He was now dead, but had borne good fruit." The example set by him, and his acts of Christianity were always of the highest and religious education had benefited beyond value by his life.

The pall-bearers were six of his grandsons: Messrs. Howard, Everett, Earl and Gordon Fairman; Wesley Beavis and Stanley Stevenson.

Interment took place in the family plot in the Trent Valley Cemetery. Telegrams of sympathy were received by the bereaved family from his many friends throughout all parts of Canada and the United States.

The floral tributes were many and bore evidence of esteem in which deceased was held.

The British Empire's coal resources are the greatest in the world. Welsh steam coal is the best in the world.

Neighborhood NEWS

HILLSIDE

H. G. Young was a visitor to Edmonton on Tuesday.

The Junior U.F.A. invite all members of the U.F.A. and U.F.W.A. to attend their regular meeting Saturday evening in the school house. The delegate and visitor to the Farm Young People's Week will give their report. Refreshments will be served.
